AromaStreamer® 750
WiFi

reimarom® AromaStreamer® 750:

- comfortable operation via Wi-Fi
- easy control from your Smartphone/Tablet
- minute and day accurate real-time programming
- quick and easy change of scent cartridge
- scent cartridge: 475 ml

Would you like to enjoy noble scents in all facets, pure and natural?

Then you should decide for the professional AromaStreamer® system, because the diffusion of scents requires a sophisticated system which ensures a uniform complexity of the scent.

The compact AromaStreamer® 750 is such a scenting device and works on the principle of cold evaporation. The gentle and micro-fine misting of exclusive scent compositions guarantees a fast scenting for areas up to 300 m². Thanks to the built-in multifunction timer, the Aromastreamer® 750 can be easily accessed by an app via W-LAN and quickly programmed to your desired working hours. Scenting intervals programmable to the second, guarantee a uniform and optimal scenting effect.

The brand-new live transmission of the level indicator provides the perfect overview. Unpleasant odors will be removed quickly and effectively by an absorber in our scents.

Design:

Front: White
Case: Black

Material:

Front: White acrylic glass
Case: Aluminium, black, powder-coated

Technical data:

prim. 220 V,
sec. 12 V, 15 W
