AromaStreamer® 300

reimarom® AromaStreamer® 300:

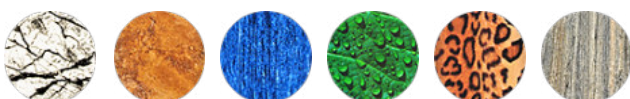

- electronic controlled
- digital display and timer
- fragrance dosing pump system
- easy control of fragrance intensity
- adjustable fan
- fast and easy exchange of fragrance
- optimized for wall mounting
- retrofitting possible
- fragrance cartridge: 250 ml

Would you like to enjoy noble scents in all facets, pure and natural?

The AromaStreamer® 300 is based on the principle of electronic controlled warm evaporation where the scents are transported precisely dosed on a heated evaporator shell. An adjustable fan then disperses the evaporated and with fragrance enriched air evenly throughout the room.

Through to his timeless design it adapts to any room. Due to our unique design options we can satisfy each request doesn't matter if it is a special color or any adorable design such as marble, stone, carbon or jeans optic.

The possibilities are unlimited – get inspired!
